KAUSHAL MEGHANI

Electrical Engineering Student | Technology & Web Builder

Vadodara, Gujarat, India | kaushalmeghani60@gmail.com | Portfolio
LinkedIn | GitHub | kaushalmeghani.netlify.app

PROFILE

Second-year Electrical Engineering student at The Maharaja Sayajirao University of Baroda with a strong foundation in circuit analysis and laboratory testing, who also builds practical web tools and hardware prototypes. Experienced in collaborative project work through Team Pivot, combining structured problem solving with clear communication and visual presentation.

EDUCATION

Electrical Engineering (EEE) - 2nd Year 2025 - Present

Faculty of Technology & Engineering, The Maharaja Sayajirao University of Baroda (MSU Baroda)

Higher Secondary (12th) - Science Stream, GSEB 2025

Score: 80%

Secondary (10th), GSEB 2023

Score: 98 percentile

Coursework: Circuit theory, engineering mechanics, applied mathematics.

PROJECTS

SolarTrack - Dual-Axis Solar Tracker (Hardware Prototype) Live project

- Built a physical prototype that orients a solar panel toward a stronger light source using LDR light sensors and two servo motors, controlled by an Arduino Uno.
- Integrated the circuit, embedded control logic, 16x2 LCD output and a mini solar panel; carried out hands-on hardware testing.

CricMetric - Cricket Scoring & Analytics Web App (Individual) Live | GitHub

- Developed a browser-based console for ball-by-ball scoring, live match tracking and visual statistics, including an interactive shot-direction (wagon wheel) selector.
- Implemented state management for rule-based scoring and event-driven UI updates; deployed on GitHub Pages.

Tech: *JavaScript (ES6+), DOM manipulation, HTML5, CSS3, GitHub Pages*

EduBridge - Scholarship Discovery Platform (Team Pivot) Live demo

- Co-developed an education web platform that helps students discover and understand scholarship opportunities through a clean, accessible interface.
- Worked on responsive search flows and team project synchronization; deployed on Netlify.

Tech: *HTML5, CSS3, JavaScript, Netlify*

LEADERSHIP & TEAM EXPERIENCE

Marketing Head & Social Media Manager - Team Pivot Team portfolio

- Part of a four-member innovation team behind EduBridge; leads marketing, social media communication, branding and visual presentation of the team's technical ideas.
- Collaborates with team members on ideation, prototyping and delivery of working digital products.

SKILLS

Electrical Engineering	Circuit analysis (KCL/KVL, mesh and nodal analysis, AC impedance, RLC circuits); oscilloscope and multimeter measurements; breadboard prototyping
Hardware & Embedded	Arduino Uno, LDR sensors, servo motors, LCD interfacing, prototype testing
Technology & Web	HTML5, CSS3, JavaScript, GitHub, Netlify deployment, Antigravity
Creative & Marketing	Social media strategy, branding, content communication, visual presentation
Collaboration	Team leadership, collaborative problem solving, technical presentation, cross-disciplinary coordination

CURRENTLY LEARNING

Colour grading and video post-production using DaVinci Resolve (node-based colour correction, palettes, contrast and mood).
